No one knows for sure how 'the world around us' would evolve and the role that one plays in the given period of time ie LIFE is what matters .

It is often said that 'be in the present' is the way forward for goodness of the individual and the society at large in the long run as every other individual does have a role to play his or her part according to the demand of the 'situation'.

Here what matters most is the situation rather than time as 'time factor' is being discussed at length by one and sundry to be precious and precise to be successful and all the conundrum associated with them.

Let me put all these as " the innerself is the voice one seldom hears as this would make a clarion call unto oneself to be self determined to take the task head on and be with it by persuing the course of action as demanded at times".

So lead a life as pleasant and peaceful as you can and let the situation play it's part and we be the wannabe trying to

THIS BOOK WAS PRODUCED WITH PRESSBOOKS

catch the art of qualification that the 'living' demands.

CHAPTER 1

What is shame all about?

According to one school of thoughts , it is right for certain people at certain times.

The question arises as to whether the how the people in the other side of the spectrum would view it.

The other people are usually weaker and fragile both physically and financially and if both the weakness getting

strengthened, the ball would star rolling in the opposite direction.

The typical example is "politics in India " where in the system is such that people who own the podium would dictate terms to opposite parties to settle the scores and vice versa when the tide start moving in the opposite direction with the passage of time.

So the time s significance rather than the situation and situation would be created for leaders for wielding powers in the form of elections and the best who adopts to sentiments of people are usually the power brokers and people are falling pray to their rhetorical and false promises .

The final truth is Situation is trapped red and blue by TIME.

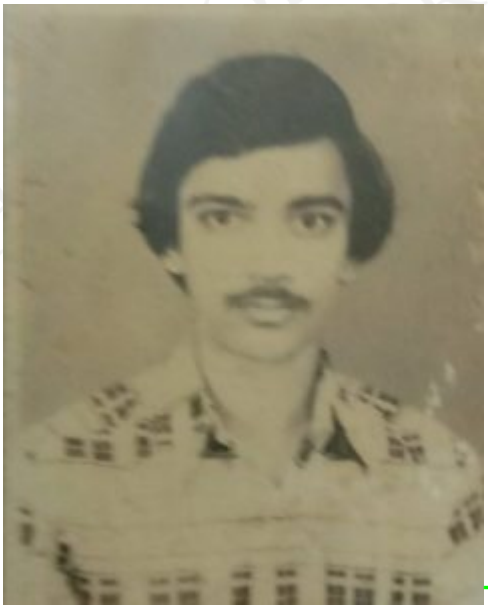
CHAPTER 2



Time is the greatest asset one should treasure. It is the watch word for all the speakers, writers , philosophers, artists, musicians, singers and what not, all and all included.

So the time is situation bound or it is free from situation.

Rather we could call the TIME as implicit, explicit and complicit of the situation.

CHAPTER 3

Me in Me always asking and indulging in making Me Mad by thinking about my deeds rather misdeeds and the resultant situation created out it made Me vulnerable and falling pray to the climax created out of the situation and the resultant action of the individuals concerned , in most cases it would be parents, teachers, mentors, managers, owners ,as the cases vary depending upon the players involved.

In this scenario, people often being taught to Praught with situation but the truth is otherwise.

With the situation so created impedded in our brains , the images of the persons often come to our imaginations and play their part as VILLAINS and we poor creatures are found wanting in our patience and time and react within our own self creating all depressions and diseases associated with them.

Is there a way out ?

CHAPTER 4

Let me split the TIME as follows

1. Teaches,
2.ignites,
3.meanders,
4.eases.

In shorttimes teaches one to be aware of the situation
It ignites minds about people, environment, situation etc,
It meanders minds to set a strong foot in the decision making process,
4.it eases with time so we as humans are living because of out forgetfulness and not by foregoing or forgiving both are divine to be followed .

CHAPTER 5

It is often said that Me is symbolic which changes it's contour with association as being called

Father to son or daughter
Brother to sister or brother
Cousin to brother
Mother to son or daughter
Cousin brother to brother'brother
Uncle, aunty, nephew, niece so on and so forth.

What sets ME to ME apart is

I am made up of Earth being filled with Air and Space being nurtured with Water and Fire .

ME in ME is not MATERIALISTIC .

It means to say that me in me is soul or atma which i can not feel or experience but I could reverberate somuch sothat it could be felt or assuaged to the seekers of TRUTH namely followers who are seeking divine things from seers.

That is what HINDUISM IS ALL ABOUT.

In last 10 years, TEN major reasons for degradation of financial situation of a family:

1. Everyone in family owns smartphone.
2. Vacations under social pressure.
3. Buying a car & gadgets as a status symbol.
4. Avoiding home made food and unnecessarily eating out on weekends.
5. Brand conscious for salons, parlours and clothes. Spoiled lifestyle increasing medical expenses.
6. Trying to make Birthday and anniversary special by spending more money rather than time together.
7. Grand weddings and family functions.
8. Commercialization of Hospitals, Schools and tuitions.. education...etc.
9. Spending what you haven't yet earned...by loans and credit cards...
10. Spending tons of money on interiors of house & office and thereby increasing the Maintenance cost....

We are copying others' lifestyle without understanding our own needs and income. If this does not get curtailed, it will lead to lots more stress and anxiety with passing years (as habits don't change).

*– *Brilliant message**
I felt it to be worth sharing
